Agricultural.

Fording Cattle around Stacks. When a corner or knoll in the meadow is found to be in poor condition, farmers to surpass in cheapness and durability any often attempt to enrich such places by thing that has heretoicre been offered to the making a stack of hay on the ground, and foddering it out, expecting to reap a double benefit of improving the land, and saving the trouble of carting the hay and manure. Let us examine the arguments Groceries, Mardware, Stores, &c. for, and objections to, this course of pro- which have been purchased for cash and must

The ground in this climate is always frozen in winter and covered more or less with snow, and consequently the liquid manure freezes upon the snow, and as the snow melts before the ground thaws and settles sufficiently to absorb the fertilizing qualities of the manure, the most valuable portion is lost entirely. The heavy rains drench the solid part of the manure, and alternate thawing and freezing destroy its strength, so that the soil is comparatively little benefited.

bleak place, consume about one-fourth every description. more food than would be necessary, if comfortable stables were provided for them, and they come out emaciated and sickly in the spring. Thus instead of securing a double profit in stacking the hay, a three-fold loss is sustained-namely, the better portion of the manure-a con- frongee; Boot and slice trees; Lasis of every siderable portion of the hay, and in the condition of the stock. Cows, kept during winter in this way, require a long strong of a commonance of the same, he will time to recover from the effects of expo- sell at the New-York and Easton prices. sure, and frequently the season is far ad- November 11, 1852. less succulent, before they regain their it arising from them.

True economy consists in keeping cattle in good condition with the least quan- lients. From the Boston Bee. The editor said, Dec. 22nd-Dr Hoofland's celebrated German Bitters for the cure of Liver complaint, jaundice, dyspepsia, chronic or nervous debility, is deservedly one of the most popular medicines of the day. These Bitters have been used by thousands, and a friend at our elbow says he has himself received an effectual and permanent cure of Liver complaint from the use of this remedy. We are convinced that, in the use of these Bitters, the patient constantly gains strength and vigor -- a fact worthy of great consideration. They are pleasant in taste and smell and can be used by persons with the most delicate stomachs with safety, under any circumstances. We are speaking from experience, and to the afflicted we advise their use
